

**ATMELY SERMON.**  
A POWERFUL AND INTERESTING SERMON ON THE ELECTION PREACHED TO A LARGE AUDIENCE.

At the Congregational church last evening, Rev. E. M. Noyes preached upon some phases of the present political situation and its lessons. The text was John 19:12—“If thou let this man go, then are you not Caesar's friend.” By the way of introduction, extracts were read from a sermon on the same text, preached by the famous Dr. Bushnell, of Harrow, England, on the 1st of August, 1828, just sixty years ago. A comparison of the situation then with the dangers now, is interesting and instructive, and the reader will find much that may be applicable in this famous sermon now more applicable than ever. While some of the dangers then described had been safely passed, we left behind forever. After passing out the door, the speaker recited of the events which resulted in the death of Christ, and commenting on Pilate as a politician, the speaker made the following points applicable to the present situation:

1. That the public mind is divided in the action of a party as it is in a dangerous tendency. Louis de Grasse of France said, “I am the state.” Every American citizen can say, “I am the state.” This is the reason why for the right government of the city, the state and the nation is individual, as well as collective. The government of the state will inevitably reflect the character of the people. It can be no better or worse than they are. Every man has his share in the expression of a righteous public opinion, and the policy which shall prevail, we may say, shall express responsibility because the thing is the work of the party. “True, the thing was wrong in itself, but we could save the party without it.” The cords do not stay the political hand, without the rod of Christ or the mob, but he could not wash his hands of his individual responsibility. Neither can you and I evade ours.

2. The dependence placed upon an appeal to the baser motives is a menace to the republic. Not only do political leaders appeal to popular rather than to reason, but in the few days of a close election, thoughtful men have already decided and settled their votes. There remains a doubtful vote largely that of the slums of our great cities. This is the hand of God. A few hours can determine where there will and where there are no votes. Hence they are sought and obtained by the politicians of both parties, are probably the reasons which often the whole nation for the next four years is decided by a few saloon-keepers and ward politicians in a great city. The vote of the party of the people is withheld in New York, Adams' tough. This is spite of the many honorable men in politics. The motives are not always good, but the means are to the ends of victory are those of the best and basest appeals. Connected with this is the raising and pushing forward of false issues, locally or nationally. The fact that we have to go to the polls in different cities, there is a “saloon vote,” an “Irish vote,” a “German vote,” or a “Catholic vote,” is a menace to our safety. The votes are stamped by false names, raised in the last days of a campaign.

3. The absolute unreliability of a partisan press and platform is an evil that is not easily remedied. It has been for sixty years ago, but is still one of huge proportions. There is no lack of men of high moral power. The reform of our public service, the adjustment of the tariff and the removal of it from the domain of partisan strife; and the new problems. What shall do with the Negro? These are the difficulties of man, the greatest problem. Every citizen ought first of all to pray for his country; then to think earnestly and honestly on the platform he will vote with, and the party which seems to him to offer the best method and hold clearest hopes for a satisfactory solution of them; and finally to vote for the party. This will not be right, whatever the result of the election. In conclusion the speaker alluded to a more important election than the next for the nation, the greater forever to be made by every soul. Heaven is more interested in your choice of an eternal Lord than in the result of a nation's choice of a temporary one. A mistake here is a fatal one.

**IRON SHIPMENTS.**  
THE HISTORY OF IRON SHIPMENTS IS ONE OF THE MOST FASCINATING IN THE HISTORY OF LAKE SUPERIOR IRON MINES—SOME FIGURES.

The business of the last week on the iron mines of the Lake Superior district has put the record of 1888 ahead of that previously unsurpassed one of 1887. To last Wednesday, the day on which the regular reports are made up, an average of 42,000 tons of iron were shipped out of the mines. In the same period last year, an increase of nearly 20,000 tons. This has not been made by rushing ore to market as was done last year, and piling up nearly a million tons of iron ore in Cleveland and other eastern ports. The Marquette Journal says on this point: “Although this bids fair to make the greatest year on record for the Lake Superior iron mines, so far as production is concerned, yet it cannot be said that the ore is being shipped forward to market because of a mistaken policy of the part of the mine owners and that next season will be the reverse of the present. The effects of an over-production for shipment of the mines on this range have received proposals for their product on the part of the mining companies, and the miners themselves. At least one of these proposals came from Ohio which would seem to indicate that they are not so anxious to get rid of their iron, as we believe. Marquette mines have never before been called on to ship ore to Cleveland.”

By cargo shipments of the season have been: Marquette, 700,700 tons; Escanaba, 363,677 tons; St. Ignace, 102,071 tons; Ashland, 100,000 tons; Duluth, 100,000 tons; Duluth, 383,556 tons. It must be remembered that these are water shipments alone and do not include iron shipped forward by rail, the Duluth & Iron Range, from a net total of 1,100,000 tons. It is probable that the entire bulk of iron shipped will be fully 5,000,000 gross tons. The Minnesota company who is down in the silver mines, 1,000,000 tons, will last night, take and rail of 450,000 tons.

### CATCHING WILD HORSES.

AN EXCITING OCCUPATION ONCE FOLLOWED ON THE PLAINS.

A Long Race in Which Brains Win the Victory—The Patriarch of the Band Outwitted at Last—The Captives Driven Into the Corral.

Usually the occupation of capturing untamed steeds was followed by three men working together. They had four or five horses, well trained horses. When the number was less, just sixty years ago, a comparison of the situation then with the dangers now, is interesting and instructive, and the reader will find much that may be applicable in this famous sermon now more applicable than ever. ### NOTICES in Commercial Statistics.

Nowhere in the world, I suppose, are commercial statistics kept so closely as they are by the people who call the French steamship line “Comte de Paris” Transatlantic. Every time the transatlantic steamer round between Havre and New York it is recorded, every ton of coal burned, every ton of steam used, every ton of freight—all are known down to the nicest certainty in the general office of the company. So when a boat comes to the port of Havre, it is sent forward the Champlain to her way across the sea, and next it is plotted in a chart of the ocean travel enough to cost the company a thousand dollars. Indeed, the cost of the voyage is known to the company in advance, so that when the vessel arrives at the port of destination, the expenses of the voyage are paid off, and the profit is known. It has been calculated how much each kilometer of ocean travel ought to cost the company, and the cost of the voyage is known to the company in advance, so that when the vessel arrives at the port of destination, the expenses of the voyage are paid off, and the profit is known. ## WEST DULUTH.

## THE MARCH TO DEATH.

## TIME DECISION CORRECT.

DULUTH, Nov. 4, 1888.  
To the Editor: In the Tribune of Saturday morning a communication from the judges has been copied for a quiet case in which the State had adopted their decision in favor of Miss Van Baskirk should have been given to Miss Johnson. It was her friends before her that offered her a safe haven, but she refused. This admission is not made, nor has it been, by the judges, and they still adhere to their original decision. Miss Johnson's friends are now at the hands of the police who have been closed, and therefore could not be accepted. Her friends had planned to win by having the last chance in the past, and were anxious in just enough time to make her a safe winner, but while hesitating as to the amount they should spend they were beaten at their own game. Very respectfully yours,

Republicans in the West End are justly proud of the showing they made in the torch light procession Saturday night.

Officer seekers are numerous in this part of the city today, and the West End voter is becoming more and more with the idea that the result depends upon his efforts.

The Swan fair was a grand success, socially and financially.

ON CHANGE.  
AN UNEXPECTED INCREASE IN THE VISIBLE SUPPLY OF WHOLE WEAKNESS PRICES.

The market for wheat opened this morning steadily and strong and gained a cent in the early business over the first sales. There was good demand for all kinds of flour, and the market was later when the statement of the visible supply increase came in, showing it to be 213,000 bushels, supplied from 120 mills, up from 600,000 to 700,000 bushels; prices on all markets unexpectedly sagged off going in just a contrary direction to what might be expected under the circumstances. A good demand was evident for cash stuff, and every lot offered sold at considerable worth. For this reason most persons, when they are finally stricken helpless by the disease, are anxious to seek shelter in the homes of others. What a relief it is to their friends to see in the full enjoyment of their facilities, they buy everything that strikes them fancy, generally paying up all cash on account of their paucity of funds. If they have any money left, they will offer it for cash stuff. Then follow a thicker darkness and a failing memory. The face becomes more puffy and the fine lines are almost obliterated. Similarly, too, the man gradually appears more than he was, but his features are gradually lost, and his voice becomes hoarse.

The estimated surplus of wheat in New York at the close of navigation is now put at 1,500,000 bushels.

A broker: "On a few occasions wheat and flour have sold at such a price that could hold up the price of wheat and the late break is owing to this."

The visible supply of wheat this morning totals 218 bushels in wheat, making the total stocks 33,392,000 bushels, a decrease in corn of 402,000 bushels, and in oats of 1,000,000 bushels.

From Minneapolis comes the news that marmalates are to be shut down. The closing of the government reservoirs will be partly responsible for this. Five per cent. of the wheat comes from these reservoirs, so the output of these seems likely to be very materially lessened.

Wheat receipts this morning were 10,294 bushels, up from 9,945 bushels. Wheat 23,255 bushels corn and 5,877 bushels barley. Cars on truck this morning were 51.

There is a store here today 772,453 bushels wheat a decline from a week ago of 42,000 bushels to 531,075 bushels at the start. On the same date last year there were 1,343,500 bushels here, an increase for that week of 239,360. Of corn there is 319 bushels, of oats 1,000 bushels, and of barley 105 bushels. St. Paul has to pay 3,132,912 and 105,000 bushels respectively, an increase of 355,465 and 10,000.

## The Last Obsequies.

Saturday evening a committee of six members of the Knights of Columbus, consisting of Ed. Johnson, Henry Shours, E. Molmox, Alber Wilkins, Sam. H. Coughlin, and J. J. O'Neil, with the remains of their comrade, John Brown, who was killed on the coal docks Friday. The remains were sent to him in his home town, and they will be buried by the side of his wife, who died about one year ago. The funeral party was met at the station by the Knights of Columbus, who conducted the service to the cemetery.

Republican's other chance.

Four thousand dollars have been left in the hands of Langdon & Davis, proprietors of the Zonta City Hotel, to be used on the election of Cleveland and Thurman. Bet will be taken in any sum from five dollars up. That money will be taken down after tonight.

## Votes for Republicans.

There is quantity of money up to \$10,000 at Langdon & Davis' Zonta City pool room to bet on the following terms:

One hundred dollars to \$50 that Cleveland and Thurman will be elected. One hundred dollars to \$50 that Indiana, Ohio, and Minnesota will be elected.

One hundred dollars against \$200 that Eugene Wilson will be elected governor of Minnesota.

Lots two blocks from steel works and car works for \$300. Few good blocks left cheap.

Dodge's addition is finely located, only five blocks from both the West Duluth and West End stations.

An anecdote of his boyhood illustrates his provincial unshaven. He was at board school, when his father became involved in financial difficulties. His father would not allow him to leave, however, to go to work, and the boy, and Ed Ward was told that he would be kept at school. He did not realize how many sacrifices his father had made for him, and he knew that his father had suffered a fatal nervous breakdown. The boy was told that if he deprived himself of that visit, he was reducing his father's chances of recovery. Students who were anxious to earn a little money for themselves were allowed a dollar a day for saving firewood. Young Edward went daily to the prairie and cut wood, and when you sat him down nine cords of wood. The principal looked doubtfully at the young lad, for the wood was tough and the boy was not, but gave his son a good scolding, and said that he thought no other action of his life had given him so much pleasure.—E. ## It Destroys the Illusion.

Ada Rehan has been telling a reporter in Paris that an actress and her husband see her thinking of a room in a caterer's shop. "It's only a room," she says, "a sort of retreat to me—at all events young. It destroys the spectator's illusion to know that the lovely heroine he has been feeding his eyes on is the mother of six children. Besides, I am afraid must distract a woman from her art."

## WHAT PHYSICIANS SAY CONCERNING GENERAL PARESIS.

Characteristics of a New American Disease. Weakened Minds Filled with Strange Hallucinations—The Results of a Fast Life—No Remedy.

"Died of general paresis." Again and again during the past five years has been the verdict in the case of mental abnormities, until the very name paresis conveys a feeling of terror to the minds of many. And well it may, for it means madness and death to its victims.

Nothing can save the person afflicted with the disease. First comes a clouding of the mental faculties, which is scarcely perceptible. Only to the expert has it any meaning.

Gradually the mental abnormities, until the very name paresis conveys a feeling of terror to the minds of many. And well it may, for it means madness and death to its victims.

A CLEAN SWEEP.

That's What the Republicans Make in Minnesota - Five Republican Congressmen.

MINNEAPOLIS, 10 a.m., Nov. 7.—The Republican state committee claims 39,000 plurality for Harrison, 16,000 for Merriman, 20,000 for the balance of the state ticket and the election of five congressmen, a clean sweep.

A Republican House.

NEW YORK, Nov. 7.—The Tribune says: The house of representatives in the fifty-first congress will be a large majority from twenty to thirty-five majorities. Indications show that this may be an increase. The New York delegation will stand eighteen Republicans to sixteen Democrats. Eastport, which has been a safe seat for two counties above named keep up the drift shown in adjoining precincts heard from. Harrison's plurality will be about 5,000 to 10,000, and Hill's about 10,000.

A Clean Sweep Confirmed.

NEW YORK, Nov. 7.—The Tribune reported last night which gave the state of New York to Harrison, Republican for president, and Hill, Democrat, for governor, is confirmed by later scattering returns. District yet to be heard from cast in 1884 a total of 364,220 votes.

A Tammany Mayor.

NEW YORK, Nov. 7.—The city committee gives for mayor, Grant 107,837, Hewitt 68,134, Erhardt 67,721, Coogan 9,465. Total 212,000 in votes.

A Clean Sweep.

NEW YORK, Nov. 7.—Returns from thirty-four counties in the state at 4:30 give Harrison nearly 12,000 majority, and Cooper (Rep.) for governor, between eight and ten thousand.

Graves Big Majority.

NEW YORK, Nov. 7, (Special).—Whole number vote cast 275. Harrison 182, Cleveland 86, Fiske 7; Merriman 118, Wilson 145, Harrison 10; Graves 208, Hawkins 68.

Stoves, Stoves, Hanchett, Sheldon & Co. 29 West Superior St.

## 20,000 IN ILLINOIS,

The Tribune Estimates the Return of 170 Republicans, Congressmen (against 160 Democrats).

Chicago, November 7.—The Tribune says:

"General Harrison has carried the state of Illinois by at least 20,000 majority, and it may be more than 'Private' files will not far from 10,000. In Cook county the vote on governors is close, but it is probable that the majority either way will be large. Cook county returns when complete will show a majority for Harrison of probably 3,000 whereas Mr. Blaine's majority four years ago was 8,000. Merriman and the Democrats elect 175 and Harrison and the Republicans 150 according to the Tribune's estimate.

## CALIFORNIA'S VOTE.

Conflicting Reports Made by Democratic and Republican Newspapers - Major Returns.

San Francisco, Nov. 7.—The Chronicle Republican in its issue this morning says: The returns received up to three o'clock this morning show that the interior has been carried by the Republicans by a handsome vote. That the victory in the state outside of the city is complete. Harrison has a plurality of from 10,000 to 12,000 in the interior. In addition to the splendid result the congressional districts outside of the city give majorities for the Republicans in every case.

The Examiner (Dem) says: Indications in California are more favorable to Cleveland. There is hardly a doubt that the state of Detroit and also Toledo, San Francisco especially has gone magnificently.

If the ratio shown by first returns be maintained, Cleveland will have 7,000 majority in the city.

## THE TARIFF.

The New York World says It Has Defeated the Democrats.

NEW YORK, Nov. 7.—The seven o'clock extra of the World said: At 7 o'clock the probabilities are that General Benjamin Harrison, of Indiana, has been chosen president. The returns from the interior of the state outside of the city of Indianapolis indicate that the returns are outlaying precincts to be heard from and one or two of the city wards are unobtainable even at this time, no complete list having been kept by the judge and clerks of election outside those sent sealed to the county auditor. Enough is plain however to show an average Republican majority of from 1,000 to 1,200 in the congressional districts outside of the city. The returns from the interior of the state ticket of about 1700. Gilman and Schaefer, the珊瑚  
tritons, are not feeling a bit better today  
since they have learned the result.

Although the Democrats sacrificed every thing to elect Wilson, he has not made as good a run as Doctor Ames did two years ago. Ames considers this is his victory.

"Jimmy" Smith and Henry Trenehan made great efforts but the Republicans had their fighting clothes on and were determined to lay every Democrat on the shelf.

Enjoy yourselves Merritt, Moore, Flynn, Colville, McGinnis, et al, for the brief period which yet remains to you. The "offensive partisanship" racket will take a new turn in a few months.

Democrats can get no consolation to-day.

The election of Harrison and Morton is conceded, the entire Minnesota state ticket is elected, and the Republicans of St. Louis win every county office. Col. C. H. Graves is elected to the legislature by an overwhelming majority. Republicans of congressmen are reported from all parts of the country and although Democrats have also made gains in certain districts the indications point to a Republican majority in congress. The victory is a sweeping one and shows that the American people are not prepared to adopt Grover Cleveland's free trade policy. The contest has been sharp and the issue plainly defined. Now capitalists can invest their money in manufacturing enterprises without fear of any change in values by change of legislation. The result will certainly have the effect of encouraging new industries and a feeling of confidence will pervade the country. The crisis has passed and the threatened danger to the American system of protection is avoided.

The News has a big brother at the head of its column this morning and professes to feel jubilant over the election of Harrison and Morton. Just why the News should claim victory over the result does not appear. It has from the beginning done the most honest kind of work against the party. It has opposed its principles and has neglected no opportunity to stab the Republican party and sneer at its position on the tariff. It has commented favorably on the rankest of free trade speeches and it demanded Fayette March just about the right kind of a Republican although he implored the voters of Duluth to vote for Cleveland, Thurman and Wilson. The News has been to the Republican party of Duluth what the New York Sun has been to the Democratic party in New York city. If the News' conceits had been headed the glorious Republican majority in St. Louis county would have been changed to a Democratic victory. The News has no reason to feel joyful. The principles it advocates have been defeated.

## THE NEW YORK PRESS.

The Republican Papers claim and Democratic Papers concede the election.

New York, Nov. 7.—The Tribune this morning says: "The result in this state is not yet certain, but the prospects strongly favor a victory for Harrison and Morton. The plurality for Cleveland below the Hawaia river instead of being 80,000 or 85,000 as confidently expected by the Democrats, appears to be about 60,000. The result outside New York and Kansas certifies the Republican gains have thus far been steady with each additional report of election districts. The proportion of the vote at the head of which is still uncertain. It could not be known until the state they would insure the victory of Harrison and Morton elected by a handsome plurality. Returns from the 10th district of the 1st writing that Harrison would have a majority of the electoral votes even without the aid of New York and Kansas. He now believes to have chosen Harrison electors. The friends of Gen. Harrison, at the West, consider it a stain, Indiana, though the returns are as yet incomplete, New Jersey returns do not look favorable, but there is as yet no indication of the result. The election of the chosen Cleveland electors. With Indiana and Connecticut the Republican candidate would probably be elected, though the result of the state would disprove the hope based upon return thus far received."

The World concedes the election of Harrison and Morton and comments as follows: The political lesson of the election is that the national supremacy of the party of the people has been added to the ambition of David B. Hill and Alfred S. Hart, and the fact which demonstrates the most complete victory to be had in this game of politics their possession of the imperial patronage of New York city is far more important than that of the nation at large.

The Sun says: When a party deliberately buries out of sight the principles on which it was founded, it deserves to be buried for a century the custodian and trustee; when it sends some of its best men to the affairs to the syndicates of cracked intellects and theorist-enthusiasts with enough shrewdness to bid the world to follow them, it abandons politics, in the same sense, and makes itself an engine for the propagation of all the evil passions of the educational canvas; somebody is bound to be hoodwinked.

**MINNEAPOLIS.**  
The Four City Slavery, the Republicans  
Ticket.

MINNEAPOLIS, Nov. 7.—Yesterday's election was one of the quietest known in Minneapolis, but it was not the quiet of apathy. A heavy vote was polled, and every candidate on every ticket made a tremendous effort to show his strength. The mayoralty contest absorbed attention more than the voter, and the fight between Ruth and Weller was kept until the last vote was polled. Capt. Babbs did not lose as much as was expected, and trounced the balance of the ticket very easily. Mr. Weller did not do well, but still expected of him, especially the voter present.

Turns owing to the method of counting, came in very slowly on the city and county tickets. In some precincts the judges began to count the national, in others the state, in great many on the local tickets.

On account of this lack of uniformity, it is difficult to give reliable returns on any one of them, and probably the best estimate is that of the Minneapolis Tribune, indicating a heavy gain over 1884. Twenty-six precincts and towns gave Sader for congress, 4,927; Lee for Pinkham, 2,216; Sander, 1,400; and 705, similar gains in the precincts to be heard from would give him nearly \$100,000 majority in the House committee. The voting is now going behind Harrison, who is ahead of his ticket considerably.

#### YANKEE SMUGGLERS.

Canadian Mounted Police Set Out to Arrest Smugglers.

WINNIPEG, Nov. 7.—This morning Inspector McGibbon and fourteen mounted police left for points in southern Manitoba, where some detachment will be stationed to watch the movements of Yankees who are smuggling, in addition to stealing, large quantities of timber from Pembina mountain. Inspector McGibbon visited the northern boundary line running along the north of the Red River and found the state of affairs as bad as had been reported. Yankees, he said, had not been here long, and, except for a few instances, the line, and, not content with stealing what is government property, they go so far as to burn and burn away their houses and occupied all the year round by Canadians, and probably several captures will be made tomorrow, when the Indians are out to hunt.

#### THE ROTHSchilds.

##### BEGINNING OF THE FINANCIAL CAREER OF A GREAT HOUSE.

The Hessian Blood Money Was the Great Foundation of Their Fortune—How the Firm of the Five Brothers Was Constituted—Waterloo.

The original name of Rothschild was Danier. The family adopted the name of Rothschild (Red Shield) from the sign which the founder of the house kept over his dingy little shop in Frankfurt-on-the-Main, in the year 1790. The name was originally given to the shop, says Henry Clews in "Twenty-eight Years in Wall Street." In this little shop, Mayer Anselm Rothschild, the ancestor of the banking dynasty, exchanged money, exchanged quality of coins, bought cheap and sold dear. "How do you get so rich, Mr. Rothschild?" said a friend of old Anselm one day, "you leave over to us little bits of paper?" "I buy silver and sell silver," he replied. "What is silver?" His knowledge of coins was marvelous. He had the instinct of genius in detecting something in the form of paper which was not what it was.

At the age of 17 young Rothschild took rank with the best, oldest and wisest financiers of Frankfurt.

It is generally known that Rothschild's first great start in financial life was given him by the use of \$40,000, which was paid to him for the privilege of issuing notes of the Bank of England for 17,000 pounds to help win the battle of Waterloo and retain the Americas colonies. This blood money was the original basis of the vast fortunes of the Rothschild family.

One evening especially impressed me at the time, and will never be forgotten. Mr. Whittier had a friendly letter—His

#### POET WHITTIER'S ADVICE.

##### Friendly Letter.

My acquaintance with the poet Whittier dates from a few years summer vacation, just before my 18th birthday. Whittier, who is well known, spends much of the summer season near Asgaard lake, in the hilly country of New Hampshire. As my father and I were walking in the forest, I said to him, "I am sure that he is to be seen to-morrow." Then he and I drove over to see the Quaker bard—known to us hitherto only through his poems, which I try to recite in this style, and which I have learned by heart.

He is a tall, thin man, with a tall, thin figure, and features which we are all familiar, nor attempt, either, to repeat the sparkling conversation which he was.

One thing especially impressed me at the time, and will never be forgotten. Mr. Whittier said that his early ambition had been to become a Unitarian pastor, and that he was compelled only by the earnest appeals of his friends. Taking their advice, he united with the persecuted and obscure, and became a Unitarian pastor, and to this course, he has adhered to the end.

Leaving the meeting, he remarked in his gentle voice, "My lad, if this would not win success, John thyself to some unpopular, but noble cause."

Some days afterward I mailed to the post office a rhyme which had been light in a religious journal published in Boston. The result was a reply, a treasure today as it was then, spoken latitudinarily, and containing the following advice:

I would not advise that to publish much for the present. In two or three years much will have been written upon the subject, and the close observation of nature, and patient brooding over thy verse will do a great deal for thee.

Some days afterword I mailed to the post office another rhyme which had been light in a religious journal published in Boston. The result was a reply, a treasure today as it was then, spoken latitudinarily, and containing the following advice:

I would not advise that to publish much for the present. In two or three years much will have been written upon the subject, and the close observation of nature, and patient brooding over thy verse will do a great deal for thee.

INDIANA AUTHENTICITY.

The Latest and Correct Returns From Indiana—Harrison 5,000 Ahead.

INDIANAPOLIS, Ind., Nov. 8.—Harrison's majority in Indiana will not be less than 3,000 and probably will be fully 5,000. The returns in the state of 10,305 are given as follows:

Gen. Harrison is elected without a contest.

NEW YORK PAPERS.

The Sun, the World and the Tribune on the Result.

New York, Nov.—An extradition of the Telepolis has been ordered by the court. The air has not cleared so completely that the presidential vote can be fairly taken in all its proportions. President Harrison or our friend Sam Cox would say is "Thoroughly elected in every respect"—so sweeping has been the victory that his majority in electoral college will at least sixty-six. He has carried every state except New York, Indiana, Wisconsin and California by such large majorities as to make the latest returns. In other words, he is elected president without the vote of New York, which in case beyond all possible dispute, and shows the exact size of the majority.

INDIANAPOLIS, Ind., Nov. 8.—The weather is cloudy and threatening rain and the streets are very muddy. The whole town has apparently broken loose now that Gen. Harrison's election is conceded beyond dispute. At this hour Pennsylvania avenue is crowded for many squares, thousands of horns are blowing, and the din is abominable. One cannot hear a man speak. A master parade is planned.

NEW YORK PAPERS.

The Sun Admits That Further Republican Gains are Evident.

NEW YORK, Nov. 8.—The Sun says: The latest despatches indicate further Republican gains in close congressional districts in different parts of the country.

TWO GAINED.

Iowa Will Send Two More Republicans to Congress.

DES MOINES, Ia., Nov. 8.—Later returns make no change in estimated result in favor of the Republicans' plenary will probably reach 20,000. The Republicans carry every congressional district but the second, a gain of two.

IN MICHIGAN.

Harrison's Plurality Exceeds that of Blaine by Nearly 10,000 Votes.

DENVER, Mich., Nov. 8.—General Harrison's plurality in Michigan will reach fully 22,000 votes against 3,300 for Blaine in 1884. This surprisingly large gain is undoubtedly due to the return of the green-backers to their old party lines.

KANSAS HEARD FROM

It Rolls Up a Grand Old Majority of 70,000.

TOKA, Kansas, Nov. 8.—Returns have been received from every county in Kansas. An estimate by the chairman of both committees of the reports received gives Harrison 70,000 majority over Cleveland, and 65,000 for the entire state legislative ticket. The legislature is almost solidly republican.

COURT OF COUNSEL.

A letter received to-day from Grand Marais gives the partial result in Cook county as follows: Total vote polled, 50, Cleveland 29, Harrison 24, Hawkins 29, Graves 23, Wilson 29, Merriam 23. The balance of the ticket received a larger majority than those on the Democratic side, but the result, as yet known here, As Cook county, is the one the Canadas and near the Iron. Feuds that have been of his administration should make Grover feel good.

ON CHANGE.

A DULL, Firm Market for Most of the Day  
WITH A WEAK CLOSING.

About all that can be said in regard to the Duluth market is said in the head of this article. There was little doing, no facts and no outside news of importance. There was a general lull on the floor until later in the day for selling. The market was decidedly strong, with foreign markets up and all eastern American prices better, and was at 2 to 2 1/2 advance over yesterday's. These were little business with however, a very slight fall in wheat and a greedy taking of all that offered. The early business in the market had steadily gone over the close when it went off nearly a cent.

## THE DAY IN THE CITY.

The city council holds an adjourned meeting this evening.

Real estate transfers yesterday were nine; consideration \$16,565.

Gravel work is being put along the avenue west of the Opera house.

The St. Paul & Duluth night train was delayed on arrival this morning for two hours.

Several teams are at work on Superior taking up the dirt and refuse from the pavements.

The Democrats have begun paying election bills at hat stores and tailor shops across the city.

Railroad travel is picking up considerably, now that election is over, and the ticket offices are busy.

St. Paul's solid Republican vote should give him a respectable representative in future conventions.

Work will soon be begun on a \$2,500 Cottager's home on the Grassy Point, Mrs. C. C. Salter will be in charge.

Local postal authorities are not considering the question of hanging out a "to rent" sign in front of their building.

Isn't it time that the Democratic and Progressive flags were hauled down from their prominent position over Superior street?

The new Odd Fellows hall on Lake avenue is conceded to be architecturally one of the finest, if not the finest, structure in the city.

J. H. Wessman and Old Stenson have formed a partnership for the purpose of carrying on a real estate and insurance business.

Mrs. Nolte kindergarten closes to-morrow night. On Monday next she will commence a class for children of seven and eight years of age.

There was a collision of two heavily loaded freight cars on the St. Paul & Duluth early last evening. But little damage other than a few cars resulted.

Work for grading First street near First avenue is going along very slow. The contractors have not relaid the cross walks taken up a week ago.

The numerous buildings all over the city still待ing to go up. Duluth's improvements in this year 1888 will prove a surprise to many Duluthians.

On the First of October track used by the St. Paul & Duluth road to twenty miles. Among those things mostly needing agitation is the building inspector ordinance.

A correspondent who telegraphed from Duluth election day that "Duluth was extensively cutting Merriam," was badly off the point. The results from the total count are:

The log cabin that was drawn through the streets as part of the Republican parade of Saturday has been in retirement since time enough for a parade of victory next Saturday.

John Haas has completed two very handsome houses on Superior street between Second and Eighth avenues. Mr. G. Trapuligan was the architect and the cost of both was about \$6,200.

Dr. Richie is now located in Minneapolis and has given up his office to which he was elected at the state university. It is understood that Dr. Stocker now has charge of the medical school.

Poor old Mr. Wolf says the electric company are the longest and heaviest ever raised in the city, being from fifty to sixty feet high and of pine. It took fourteen men nearly a day to put one of them in place.

Now that the election of Harrison and Morton is concluded, West Superior Street will no longer have the free trade bugaboos as an excuse for the delay in building that's been going on for a year.

Rev. Mr. Crothers of Unity church, St. Paul, will preach at Ingalls hall, Ingalls block, 105 and 107, Superior street west, on Saturday evening next. A full attendance of all interested in liberal preaching is requested.

Contractor Wolf says the concrete work for the new bridge is now completed, but little work remains to be done in corners of avenues. Block laying will be finished in one day, and then the work will be submitted to the city.

Word was received here last night that Dr. McComb had suffered a relapse at his home in Stillwater, and had again been confined to bed. His friends hope that nothing serious will result, but he will soon be back again.

The time for action sidewalk has apparently passed for the people. Beside those already put down in the past two weeks and the Duluth Union National bank, the Metropolitan building will have others with several other buildings along Superior street.

Now is the opportunity to all to come and help work up some activity in real estate all over the city. Prices are too low and especially in the business portions intrinsically, the main retail street property is to be had for the asking. Each is worth more money than the price asked.

At the government engineer's office they are busy with the plans of improvement for the harbor, but the large and costly breakwater is to be built. Isn't that the harbor, by the way, that has always claimed, as against the critics, that there was no rock work in the grading but that a large number of friends will be in attendance to do honor to the worthy captain.

Capt. Tom McLaughlin one of the most popular men on the police force, soon to leave the city for an extended trip to benefit his health. His friends have arranged for the ball in his honor to be given to-morrow night at Ingalls hall. There but that a large number of friends will be in attendance to do honor to the worthy captain.

Thirty blocks of grading on the Michigan street has already been completed this year. The above includes the work on Twenty-third and Twenty-fifth avenues west. There was no work in the grading but was principally heavy filling and cutting. The grading has been one year more or over to finish the work.

There is a movement on foot for a grand Republican parade Saturday evening, and that it will be a success. The large and costly breakwater is to be built. Isn't that the harbor, by the way, that has always claimed, as against the critics, that there was no rock work in the grading but that a large number of friends will be in attendance to do honor to the worthy captain.

Major Cole is still addressing large audience at Normannagard hall. He will continue these meetings the balance of the week.

Paul Sherry has been receiving congratulations from many friends for his success in the campaign. There is one that certain the duties of the office will be carried on honestly.

A dance is to be given in Swan hall to-morrow evening.

Grading on Twenty-third and Twenty-fifth avenues west is completed and the contractors have done good work.

E. H. Hall made a good run in this end of the city, but got lost on the wrong side and consequently got lost.

## THE DAY IN THE CITY.

The city council holds an adjourned meeting this evening.

Real estate transfers yesterday were nine; consisting of:

Granite curbing is being put along the avenue side of the Opera house.

The St. Paul & Duluth night train was delayed on arrival this morning for two hours.

Several teams are at work on Superior taking up the dirt and refuse from the pavements.

The Duvels have begun paying election debts and hat stores and tailor shops are unusually busy.

Railroad travel is picking up considerably, now that election is over, and the ticket office is open.

St. Louis county's solid Republican vote should give her a respectable representative in future conventions.

Work will soon begin on \$2,500 Congregational church building at Grassy Point, Iow. C. C. Salter will be in charge.

Local postal authorities are now considering the question of hanging out a "to route" sign in front of their offices.

Isn't it time that the Democratic and Prohibition flags were hauled down from their prominent places over Superior street?

The new Odd Fellows' hall on Lake avenue is conceded to be architecturally one of the finest, if not the finest, structure in the city.

J. H. Steenerson and Olaf Stenson have formed a partnership for the purpose of carrying on a real estate and insurance business.

Miss Nolte kindergarten closes to-morrow night. On Monday next she will commence a class for children of seven and eight years old.

This was a collision of two heavily loaded freight cars on the St. Paul & Duluth early last evening. But little damage other than that can be calculated.

Work for grading First street near First avenue west is getting along very slow. The contractors have not re-laid the crosswalks taken up to lay the asphalt.

The numerous buildings all over the city still continue to go up. Duluth's improvements in this year 1888 will prove a surprise to many.

On the Paul & Duluth track used by the Short Line, new steel rails of seventy pounds to the yard are being put down.

The traffic on this line is increasing rapidly.

They will meet tonight at the council chambers and talk over various matters. Among those things mostly needing agitation is the building inspector ordinance.

A correspondent who telegraphed from Duluth election day that "Duluth is extensively cutting Merriam," was badly off in his report regarding the results from the total majorities.

The log cabin that was drawn through the streets as part of the Red Rock parade is now being built in retirement since that time to be ready for a parade of victory next Saturday.

John Hall has completed two very handsome houses on Second street between Seventh and Eighth avenues east. O. G. Traplin, with the architect, and the cost of the work about \$20,000.

Dr. Ritchie is now located in Minneapolis and has assumed the professorship to which he was elected, at the state university. It is understood that Dr. Stenger now has charge of St. Luke's hospital.

Police being put out by the new Electric police are the longest and heaviest ever raised in the city, being forty-five feet six inches in length.

It take fourteen men nearly a day to put one of them in place.

Now that the election of Harrison and Morton is conceded the West Superior Steel company will no longer have the free trade bugaboo as an excuse for the delay in building their "never green" blue furnace.

Rev. Mr. Crothers, of Unity church, St. Paul, will be installed at Ingalls block on 103 and 107, Superior Street, on Sunday evening next. A full attendance of all interested in liberal preaching is requested.

Congressor Wolf says the concrete work for the pavilion is practically completed and but little work remains to be done in corners of avenue. Block laying will be finished in one week and the work will be submitted to the council.

Word was received here yesterday that Dr. McDonald suffered a relapse at his home in Stillwater and at last accounts was reported very low. His many friends hope that nothing serious will result and that he will recover.

The mania for stone sidewalks has apparently possession of the people. Besides those already put down in the two weeks and the month of November, the National bank and the Metropolitan building will have one, will several other buildings along Superior street.

Now is the opportunity for all to come down and work up some activity in real estate all over the city. Prices are too low and especially the real estate market raised in the last half century by six feet in the same time. It take fourteen men nearly a day to put one of them in place.

Four years ago Cleveland said that one term was enough. In the language of a windy contemporary, he may consider him self modestly endorsed.

Now that the election is over and Gen. Harrison chosen president, it is well enough to remember that Pat Kilian will fight Dominic McCaffrey to a finish next month.

Only one county in the state gave a larger Republican majority than St. Louis and that is Hennepin. St. Louis should, considering size, be called the banner county.

The people have decided by an overwhelming majority that the tariff is not a tax. The tariff question will now be quickly disposed of and the Senate tariff bill will be made a law.

Ignatius Donnelly, who was a candidate for the legislature from Dakota county, was defeated by a majority of only eight votes. This will ruin the sage's chances for entering the senatorial contest.

Harrison and Morton would have been elected had Cleveland joined New York, West Virginia would have turned the scale, and given the Republicans 283 electoral votes while only 201 is necessary.

The Democrats will carry New York four years hence if the state does as it has for the last thirty years. No one party has carried the state at two successive presidential elections. It will be the Democrats' turn next time.

Many defects in the Whiteman's election law were called upon the occasion of its first practical application Tuesday. These will undoubtedly be remedied by the next legislature. As a whole the law is a good one and with a few changes it will be a model.

Two years hence St. Louis county will have a large representation in the Fifth district Republican convention and will be in a position to have a good deal to say about who will be the nominee. The people of Duluth will be pleased if they attend.

## THE COUNCIL.

A SPECIAL MEETING OF THE CITY COUNCIL HELD LAST NIGHT TO TRANSACT REGULAR BUSINESS.

Eleven aldermen were so far recovered from election excitement as to be present at the adjourned session of the council last night. The board of works opened the ball by submitting a number of estimates for work done by them. West \$1,07, M. H. Zimmerman & Moore \$2,701, and other smaller amounts. They asked authority to make contract with the bidders of Jno. F. Power for sewer on East Second street which had failed to fall. Granted. The board of works also voted to contract to lay 1,000 feet of new hose and requested that an early trial of the new chemicals be made. Mr. H. A. Taylor, a son of G. Taylor, to erect a wooden structure in the site of one of the ruined houses was voted to these. Property owners on the lower side of Fourth Street between Sixth and Tenth avenues were granted a new award.

General bills were voted and ordered paid. The monthly report of the pound-masters showed results of \$116. The monthly report of the fire department was received as follows: General fund, \$2,578, total, with cash hand, \$100,921; disbursements, \$78,230; total with cash on hand, \$85,567; disbursements, \$84,646; fire department fund, \$1,000; total with cash on hand, \$15,166; disbursements, \$5,553; Municipal court receipts were \$1,772.

Orders were given for work done on both West End engine house and city hall. As well as sewer assignment for the Women's Home Garden. Two circular avenues west were ordered gravelled between Michigan and Superior streets. It was voted to inspect West Michigan avenue to what was asked toward making it passable. Several hydrants were ordered and the council adjourned.

## The Northwest.

In the Northwest Magazine for November appears a long poem, "Editorially," by Mr. Similsky, editor of the Magazine. The article on Superior in the present number of the Northwest will no doubt cause many readers to ask, What of Superior? big and now, now, now! Duluth? Duluth? Duluth? Duluth is also growing and prospering? I visited the Zenith City last month to observe the changes of a year. They are great and still greater. Business has increased and wholesale trade has been opened between Superior street and the bay and a number of large blocks erected upon the upper street has undergone a remarkable transformation, with its cedar block pavement and its many new business structures. The new street and market streets have been graded and now regard the coast of rock-cutting on the hillside. At the east end of the city a hand-some residence hotel has been built and at the west the new business blocks and hills and the Bay of St. Louis is full of new streets, new dwellings and new stores. Rapid transit train now run from Oneota, at the extreme east end, to Lester, a new suburb at the extreme east end, and the distance being about eight miles, Duluth now has the right to claim 33,000 inhabitants. Only six years ago when first saw the city, I could not have imagined or credited the claim of 6,000 then made for it. There were plenty of skeptics then who said it never could be made of a playground, nothing to live on, but the transhipment of wheat and coal. Yet the Duluth of today is an infant compared to what the world ten years hence.

There is a plan of foot, much favored in Duluth, to bridge the bay of Superior from Rice Point to the head of the Fond du Lac river. This is strongly opposed by Superior people and Wisconsin representatives in congress. This controversy results in the old quarrel between the two states and two states growing out of the digging of the canal in 1871. Superior claimed that this artificial entrance diverted the outflow of the St. Louis river. To obviate this, the St. Louis and Lake Superior's Part to Minnesota Point, it was not a success. Wisconsin took up the contest and carried it to the Supreme court but was beaten, Superior having a good lawyer and attorney. Finally there was a compromise. The dikes were destroyed and the Northern Pacific, which had aided in both dikes and canal built a line from Duluth to Superior.

## HER MOODS.

Sometimes she looks like a lion, hair tall blazed in a yellow rage; I never thought. Or windish it is around and round my thoughts in shining robes until I stretch there. Sometimes she reaches both white, pulsing hands, And then she chases the lion away, with a boldness such as her own, so that I may not stir within those crushing bands.

Sometimes in wilder mood, into my lips.

She takes her sharp, white, thin hand and holds it to my mouth, until I drop.

## MOUNT ARARAT.

"Hold, I am not a coward, as you all will acknowledge since you know where I stand, and where I stand on my way, but not for the love of the god which these terms once contained would I ever venture to ascend Mount Ararat, the accursed mount."

It was De Thon who was speaking to us of his friends who were scattered with him one superb moonlight night among the ruins of the temples of Karnak, in Upper Egypt. After a long ramble through the desert we had come to the last of these temples, once containing what I never saw, the famous Mount Ararat, the accursed mount."

Then, "my friends," he continued, "a nameless terror from my blood, I fled, and my heart stilled with blood and fire, made me carnivorous, deep set eyes, whose orbits gleamed like coals of fire."

How De Thon seemed to live over and over again the episode of his life, leaned forward on the stone pillar. He went through the whole scene. His hands were clenched, the veins in his neck stood out, his head bent low, his eyes looking down at the floor of the talismanic chamber, and man was still seated devouring his hideous repast—when oh! my friends—oh! Heaven! I shall never forget the horror of that moment, when I saw the god which these terms once contained, I never saw, the famous Mount Ararat, the accursed mount."

A walk from next Sunday will be generally recognized as temperance day among the churches.

The Turners are going to give a hall some evening next week. It promises to be a great affair.

One druk was all that was up in the municipal court this morning and a fine was paid off.

Next Monday and Tuesday nights the White Slave company will be at the Grand opera house.

Henry Johnson and Frederick Roth were arrested yesterday charged with violating the bath ordinance.

The Young Men's Republican Club meet tonight. Their arrangements to turn out with the greatest parade tomorrow night.

Everyone is now looking forward to the pleasure of Thanksgiving day, all surely having a good time.

The Hotel Shore road is hustling for business and yesterday afternoon carried a sleeper full of through Chicago passengers.

On Monday next the evening class for the winter term of the public school will commence at 7:30 both in the high school and adams.

The Wisconsin Central line is making extensive changes on its road and will put on several new cars between here and Chicago next month.

The election is over. Nearly all the money won remains in Duluth and a good deal of it was outside cash.

Elaborate preparations are being made for tomorrow night's grand ball and there is no little anxiety as to whether a pennant will reign supreme for a few hours.

It will be a grand brigade on Saturday night with some forces to be sure.

Bands and soloists will be among the features of the demonstration.

An addition has just been made to the Bethel museum by E. Grumbach, the furrier, who has given a very handsome mounted game piece, now in his store window.

A great many laborers have left Duluth since election. Some have gone to the South and a large number are in the woods logging.

Jay W. Anderson has a conundrum to propound and those bringing him the correct answer will be given a prize. Here it is. Why do trees like Grover Cleveland?

Don't forget the vegetable to be given this evening by the young people of the Congregational church. The entertainment will commence at 7:30 and all are cordially invited.

No tenant has yet been found for the Spalding house, though negotiations are in progress with several. Work on the interior of the magnificently proportioned rooms is progressing rapidly.

The city hall building is rapidly assuming the appearance of a substantial structure.

Work on the bridge leading to the pools of east Superior street and attracting business in that direction.

All the dry docks have plenty of work to do this winter and in fact there can be attended to. Coal, wood will repair the big Rambler and other Duluth boats will receive needed proportions.

### JOIN THE PARADE.

Everybody Invited to do Honor to Ben Harrison and Levi Morton.

### GRANDEST OF ALL DEMONSTRATIONS

Torchlights, Brooms, Flags and Banners will be Seen in Line To-night

### STARS AND STRIPES.

Hosanna! Hosanna!  
We have a nation again,  
Benjamin Harrison's won.  
The people have spoken  
Democracy's broken,  
'Tis well and truly done.

The meeting held last night in the rooms of the Young Men's Republican club was largely attended and everyone was enthusiastic and ready to do their utmost to make the grand demonstration tonight a success. Messrs. Sutphin, Prentiss, Burke, Hartley, Armstrong, La Vaque, Hayes, Sharvy, and Kennedy were appointed as the executive committee selected by Mayor Sutphin for chief marshal. The Mayor then appointed as his chief aides Julius Howard, H. C. Kendall, C. C. Teer, A. S. Morgan, C. A. Nichols, H. R. Armstrong, T. W. Huoz, Duncan Moore, and A. Swenson. They will be assigned to different divisions of the parade. The first division will march down Second street east of Second avenue East, and then the line of march will be as follows: Up Second avenue East, along Third street, down Second avenue West, where the West Enders will join the parade in the park, down Twentieth avenue to Superior street, to Grand Avenue, down Grand street, to Sixth avenue West, to Sixth avenue East and counter-clockwise.

The grand parade will commence to-morrow promptly at 7:30 and everyone is requested to be on hand at that time. On the hands of the grand marshal will be the gavel of Tom Pender, president of the national juvenile Americans. They are all invited and requested to meet at the corner of Lake and Superior streets at 6 o'clock sharp. They are urged to bring torches, brooms, flags and banners and more especially hats. Fireworks, paramonies, parades, and一切 will be nothing to the noise the victorious Republicans will make tonight. Preparations have already been made for the great display to be seen in the north western part of the state; tin horns long enough to be blown by giants, resined canes and other instruments of melody in procession, while torches, banners, transparencies and decorations are to be used by hundreds. Various organizations will march in a band of drums and fifes, followed by a band of trumpets and bugles. The band of drums will be followed by the Republican club at the head, the West End club in the center, the brass band, the organists from previous parades, in the rear, and the rank and file of the party all along the line. The band will be followed by the turnouts from public and private stables, and the utmost ingenuity has been shown in arrangements. Buildings all along the route have been decorated in a most artistic manner and the interest in a great many of the work is already done.

The two Superiors will send over large delegations, the former in torches and horns and delegations from Tower and Ely will be hard to assist in making the blowout the grandest of anything ever seen in this state.

PROCESSION POINTS.

All the nationalities will be represented. Let the new county officers march in a body.

The kids meet on Second street and Lake avenue.

Many stores will be decorated and illuminated.

Major Sutphin says let every one make a silk or stiff hat.

There is something the crowd can sing to-night and give up "He's all right."

Fours-four-months-more. Then hell-be-red-through the White House door.

Saints and sinners are going to the town this evening to be present from the parades.

Go to the Opera house after the parade and hear Joseph Griener in "Caledon Back."

Marshal Sutphin will again carry the parade through all right. Why not invite him?

Members of the young men's republican club are requested to meet at the rooms at 7 o'clock sharp.

The board of trade has engaged a St. Paul band which will reach here at 7:45 tonight. The members will meet the musicians and march up Fifth avenue west, striking the main procession on the way.

The Superior citizens will reach here at 7:15 tonight in the main procession of the city style. Shipped direct from Europe. The trade and families supplied. Corner Lake, Avenue and Superior street.

THE STYLING OF FECTORS.

The Great Eastern is showing an elegant line of silk and stiff hats, in Youman's Schindler, Nascimento and other leading styles. The hats are some of the newest and best caps. Prices paying or winning election bets will find stock most complete to choose from.

### RAPID RAILROAD BUILDING.

HENRY & BALCH, CONTRACTORS FOR THE SHORE ROAD ARE RUSHING THEIR WORK.

Contractor Balch, of the firm of Henry & Balch, builders of the Duluth, South Shore & Atlantic Railroad, has stated that the work of building in the eight miles of track necessary to connect the road with the Northern Pacific bridge to Duluth was well in progress. Four miles south of the Nemadji bridge is completed, and today work began on the bridge over that river. It will be ready for the train to pass over it in about a week. The bridge is to be 100 feet long and 40 feet high, and piles driving will be finished very soon. Today, also, work began on the four miles of line to Duluth, connecting with West Superior and Duluth. A large force of men is at work and by next Saturday night, trains will be running over the line. The bridge is to be built in the best manner and will leave but thirty miles of the Northern Pacific track to be run over by the Duluth line. The bridge will be 100 feet long and 40 feet high, and piles driving will be finished very soon. Today, also, work began on the four miles of line to Duluth, connecting with West Superior and Duluth. OFFICIAL PAPER OF DULUTH.

THE WHITE HOUSE.

This will be the residence of Hon. Benj. Harrison after March 4th.

PRESIDENT HARRISON.

Let us cry the loud Hosanna,  
For President Ben. of Indiana,  
Takes the cake and th bananas  
From old Grover and Red Bandanna.

The demonstration tonight will be a glorious one. Let everyone turn out and make it unanimous. Even Democrats will not be barred.

There will be no more voting for free trade bills by Minnesota congressmen. One term of that kind of business was enough. John Land will not be alone next year.

West Virginia has broken the solid South. Four years hence let it be hoped there will be no South and no North and that the issues of that campaign will no longer be sectional.

Senator Matthew S. Quay, of Pennsylvania, to whom is due the credit of the excellent management of the Republican campaign is a genius. He is the best campaign manager the country has seen since Zach Caudle's time.

The St Paul Dispatch is booming Cushman K. Davis for a cabinet position. If Harrison should choose Minnesota's junior senator as one of his cabinet advisers there would be room for another of Minnesota's statesmen in the United States senate.

Much regret will be felt that Mrs. Cleveland will no longer be the lady of the White House. Her successor, however, is a fine type of American womanhood and it will be but a short time before she will be as popular as handsome Mrs. Cleveland.

The freedom of the city is extended to everybody tonight, so let every one—Democrats and Republicans—make the best of it. A large majority of this community have good cause to rejoice and the minority ought to throw aside their melancholy for tonight, at least, and join in the jubilee.

Minnesota's political interest will now center upon the coming senatorial contest. There is plenty of excellent senatorial timber in the state. D. M. Sabine, the present incumbent, will make a strong effort to succeed himself. W. D. Washburn is also prominently mentioned and if he makes a canvass of the state will prove a formidable candidate. Gov. Merriman is also mentioned as a senatorial possibility and it is not improbable that he will capture the prize if he sets out to do so.

This is the kind of a trifling error, the St Paul Globe is. It says: "It is to be hoped that the Democratic office holders will show a better spirit than the Republican officials did four years ago, and will not be holding on to offices they are not entitled to hold until they are kicked out." On the 4th of next March the Democrats in office should step out in a body, not partially because the spoils belong to the victors, but from that sense of self-respect by which gentlemen should always be guided. If there is anything more contemptible than another, it is to see a politician clinging to an administration to which he is opposed in principle."

The poor News is having a sorry time of it trying to justify the course it pursued in the campaign. Even now it repudiates the platform adopted by the Chicago convention, and terms itself the conscience of the Northern party. President Elect Harrison and Vice President Elect Morton endorsed the Chicago platform without reserve and promise to carry out the principles embodied in it to the letter in care of their election. The News now professes to believe that they were hasty and that they will not keep their promises. If the News really "did support Harrison and Morton, which few Republicans believe, it did it for personal reasons. The principles it advocated were those of Grover Cleveland and it was in favor of bringing men to office who were opposed to that legislation. It was in a position to say, if Harrison was defeated, "We told you so." The News finds itself without a position to stand on. It is neither Republican or Democratic. Neither party will own it.

## THE SOCIAL SALAD.

The Events Transpiring in the Zenith City During the Past Seven Days.

BETHEL CONCERT ON FRIDAY NEXT.

Many People Going and Coming—Prompts of a Lively Social Season.

From now on Duluth will not lack for social amusements and entertainments. The Owl club has waked from its summer sleep, the Friends in Council have come alive to their duty, the art and literature classes of all descriptions are under full headway and the festivities of the winter will not lack for fuel from henceforth. Election has been a damper to society the last few weeks but a number of unique entertainments have been arranged and will soon be carried out. There is a probability that the famous reader-actress Mrs. Scott Siddons will appear in Duluth the last of the present month under the auspices of one of our ladies' societies, and it is to be hoped that the arrangements partially made with the author and removed will be carried out. Much musical entertainment is being planned for the Bethel and will be given at Friday evening, December 1st. A program, carried out by the leaders in musical circles, including Mrs. Nichols, Misses Rainey, Louder, Parker and Lloyd, Misses Howes, Mrs. McGinnis, Mr. E. J. Ellingson and Hoare's orchestra, has been planned. Ballerina charms operate the Sleeping Queen, and the first meeting will be the first party of the season. Thursday evening, and will follow it up by similar parties at the Hotel and other leading houses. Next month the new St. Louis will be the place of gathering. The first party will be a German. The young men of Duluth are making special plans this season to see that the entertainments are earnestly solicited, to be sent to room 12 Ingalls block.
